#### **Program Description:**

This program encompasses all aspects of the West Plains R-VII School District's technology program. The following Technology Mission Statement is from the district Technology Plan:

The West Plains R-7 School District's Technology Mission is to directly and positively impact district CSIP goals relative to student achievement through the integration and application of technological resources into the educational environment. In order to maximize educational opportunities while creating productive citizens, students and staff must develop competency in the use and application of the technology available to them as a learning resource. This shall be accomplished by the implementation of a well defined Technology Plan which focuses on the five Technology Focus Areas, i.e. student learning as it relates to the Show-Me Standards including technology skills, teacher preparation and the delivery of instruction, administration / data management / communication processes, resource distribution and use, and technical support. It is through the integration of technology into the district's curriculum and classroom instruction that it becomes a resource that positively impacts student achievement.

In order to achieve this mission, the technology program incorporates the following components:

- The integration of technology as an instructional resource throughout the district's curriculum and instructional program.
- Professional development of district staff members to enable them to attain both basic technology skills as well as advanced skills required to effectively integrate technology as an instructional resource.
- A technology curriculum and instructional program designed to enable students to attain the technology skills required to be productive citizens.
- The development, management, and maintenance of the district's infrastructure, hardware, and software to meet district expectations for communication, instruction, and other identified uses.
- The development and maintenance of district databases to provide accurate and reliable information, both internally and externally, for decision making and accountability.
- The allocation of resources to meet the district's technology needs.

#### WEST PLAINS PUBLIC SCHOOLS CSIP GOALS

- Goal 1 Develop and enhance quality educational/instructional programs to improve student performance and enable students to meet their personal, academic, and career goals.
- Goal 2 Recruit, attract, develop, and retain highly qualified staff to carry out the West Plains R-7 mission, goals, and objectives.
- Goal 3 Provide and maintain appropriate instructional resources, support services, and functional and safe facilities.
- Goal 4 Promote, facilitate, and enhance parent, student, and community involvement in West Plains R-7 educational programs.
- Goal 5 Govern West Plains R-7 in an efficient and effective manner providing leadership and representation to benefit the students, staff, and patrons of the district.

### **Technology Focus Areas (TFAs)**

- 1. Students Learning
- 2. Teacher Preparation
- 3. Administration, Management, & Communications
